

EEZIDECK™

Event Flooring

www.eezideck.com

We've Got You Covered!

Eezideck is an intelligent temporary flooring system, that can be used on a variety of surfaces with or without decorative covering. It is an integrated system including edging, expansion joints and cable runner systems. Incorporated into the design parameters is a grass protection system and is particularly suited to areas where grass protection is required. Eezideck has a solid floor feeling under foot and is suitable for the more discerning events.
